Total Supply of AIT

5%

Tax on every Buy/Sell

1%

Max Wallet at launch

Token Usage

- Utility: AIT is used to pay for access to premium features of Aintel Tools and various additional services on the platform.
- Rewards: AIT holders receive rewards such as discounts, exclusive access, or other incentives for using the platform and participating in the ecosystem.

Token Distribution

- Initial Sale: 80% of the total supply will be allocated for the initial sale, with the majority used for platform development and operations.
- Ecosystem: 5% will be reserved for ecosystem development and growth, including incentives and rewards for users.
- Team: 2% will be allocated to the development and management team, with long-term vesting to ensure project sustainability.
- Partnerships and Marketing: 10% will be used for strategic partnerships, marketing, and promotional campaigns to increase awareness and adoption.
- Community Ownership: 3% will be allocated for community funds or incentive programs for user community.

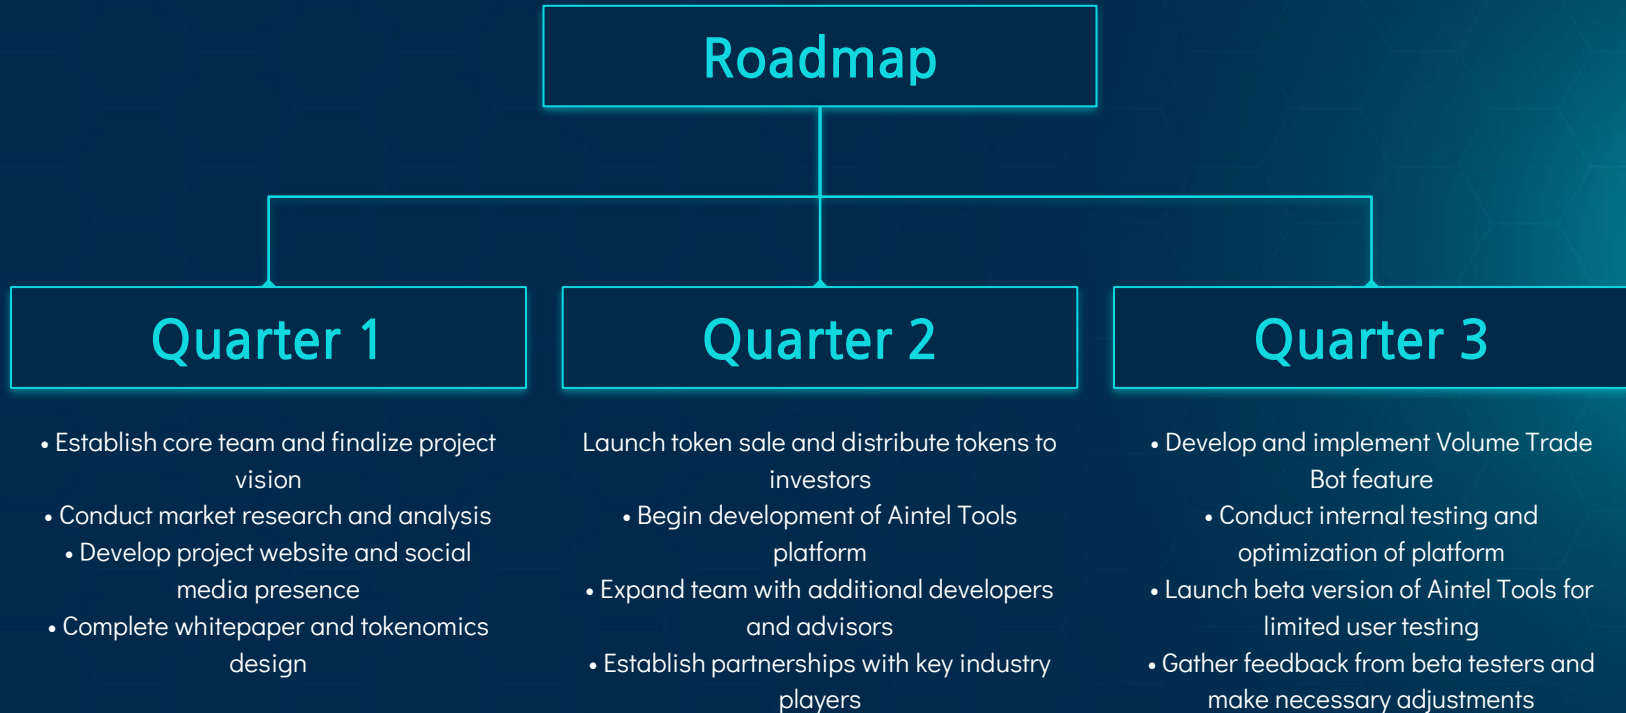

Burn Mechanism: A small portion of transaction fees or service charges will be periodically burned to reduce the total token supply and increase the asset value.

Token Staking and Governance: In the future, Aintel Tools is planned to support staking and governance features, allowing token holders to participate in decision-making and earn additional rewards through staking.

What the Plan?

Thanks!
